

## [Australian Research Council Ranking of Journals \(2009\)](#)

**A\*** A B C

Top 5%

*[ "Typically an A\* journal would be one of the best in its field or subfield in which to publish and would typically cover the entire field/subfield. Virtually all papers they publish will be of a very high quality. These are journals where most of the work is important (it will really shape the field) and where researchers boast about getting accepted. Acceptance rates would typically be low and the editorial board would be dominated by field leaders, including many from top institutions." ]*

American Journal of Comparative Law

American Journal of International Law

American Political Science Review

Australian Journal of Administrative Law

Australian Journal of Human Rights
